The In Clinical Practice series aims to provide expert information 'at your fingertips' - concise handbooks organized in a straightforward manner. The series is designed to meet the needs of the busy primary care providers by delivering authoritative and accessible information from clinical experts to assist with treatment decisions.

- Jointly written by specialists and GPs to provide cutting edge information tailored perfectly for the primary care setting
- Include management algorithms to provide quick reference treatment pathways
- Credible evidence-based sources - when possible, evidence base for best practice by reference to primary research or international guidelines
- Bullet lists and short tables for clear presentation of key information
