After decades of squandering and abusing the earth's natural resources the future of mankind was bleak. Humanity searched the earth for any remaining energy, hoping to discover an answer before the lights went out. They resurrected the ancient grounds of Eden, hoping to find its power – an extraordinary ore offering an unlimited source of energy.

Gabriel Roberts, the son of the ore's discoverer, awakens to a horrific storm that kills his mother and leaves him with a piece of the ore plunged into his chest. He survives and is found by rescue teams the next day; their helpful nature changes as they discover what's in his chest. Panicked Gabriel unleashes a massive explosion from the ore in his chest. His estranged brother, Adin, arrives after the blast and takes him to hide live with him in the metropolis of Denver. It isn't long before strangers come looking for Gabriel.

Attacked in the night, Gabriel is saved by a young woman with supernatural abilities. She leaves him promptly with only a warning to stay hidden and not to trust anyone. Gabriel rushes back to reconnect with his brother, but trouble follows and rips the two apart once again. Gabriel makes a daring escape, hoping Adin will be spared as their attackers chase after him.

His world begins to spin out of control as he discovered a hidden war, raging on behind the scenes. As Gabriel learns about the true nature of the ore in his chest, he is forced to choose a side. A decision that will shape the course of humanity.
