La Crisi Ambientale Globale: Una prospettiva globale per un futuro sostenibile ed una proposta non esclusiva all'Europa Unita (Environment) (Italian Edition) Giovanni Rantucci

The book "La Crisi Ambientale Globale" is the italian translation of the 2012 book "The Global Environmental Crisis". Humanity is getting closer to the limit beyond which anthropogenic impacts are likely to determine irreversible changes in the climate trend. Trespassing the limit this time will not be due to natural events, rather to human activities and effects on the entire biosphere. Sustainable development appears the only solution for a common survival and United Nations and the European Union should seriously consider the possibility of a unilateral action in preserving the harmony of the biosphere.
