In an alternative world, an esoteric science becomes the latest threat against humanity... and everyone wants a taste of its power.

Sven Yrugeai and his partner are put up to the test against a world of obstacles; a world evolving ahead of its time. Cities are destroyed one by one. People are dying by the thousands. The world cries for more until it takes its last breath. Only a select few stand against the chaos.

But when Sven's greatest memories are made into the greatest obstacles, how much of his past will be sacrificed to save the future?

"Solarius." takes place in a world parallel to our own, known as Iode. It follows so closely to Earth, in fact, that one of the continents is called Earth, the countries of which include New York and Moscow, which follow very closely to their respected cultures.

The story follows Sven Yrugeai and his partner Rayne Sykes. Sven has a bold, masculine personality; Rayne's is more bubbly and suggestive as he follows his role model around from place to place. They are the leaders of the Ozma Corporation, a sort of "guns for hire" organization leveled to its bare minimal capacity after their last failed mission. The corporation used to be hired as extras to warfare, now only used to answer distress calls to clean up the mess they left behind.

Roy Diablo, Sven's best friend, was leader of the Mada Corporatoin; a rival faction to give the game more competition. He was also a scientist, creator of several inventions including cloning machines, military weaponry, simlified engine parts, and eventually Aura - the "god power" that later becomes the story's main focus. Years after Roy's death, his body is reanimated by the series' main antagonist, Sin, using Aura. Sin and his Black Tower collect various specialists and control them using Aura to "up" the tyranny he desires. Various other soldiers include the pyrokinetic Courtney Renae Windstrobe and the deranged sociopath William Shadow.

A project five years in the making and FINALLY completed! Benn Tilar Wuest puts his every effort into creating the ultimate story.
