## **How To Create (And Maintain) Your Wealth As The U.S. Dollar Falls: An Interview Mike Maloney, Investment Advisor to Rich Dad Poor Dad author Robert Kiyosaki** Michael Senoff

For the last 10 years, the value of the U.S. dollar has dropped, and more than a few experts think it's living on borrowed time. But that doesn't mean we're all doomed. By making a few key investment moves, you can actually gain wealth as the dollar declines.

Meet Mike Maloney. He's a precious metals investment advisor to Robert Kiyosaki and author of the bestselling book *Guide to Investing in Gold and Silver*, part of the "Rich Dad Advisor's" series of books. According to Mike, the key to building dollar-proof wealth is in becoming as informed as you can – about the history of the monetary system and how the markets work. But this isn't as hard as it sounds. And in this audio, you'll hear a quick-start guide that will get you on your way.

You'll Also Hear...

- A real-life look at whether or not the dollar is headed for catastrophe – and what you can expect to happen next
- Complex investment terminology broken down into layman terms – such as “free trade,” “exchange-traded-funds,” “monster box,” “price discovery mechanism,” “futures contracts,” “dead cat bounce,” etc – and what they all mean for you
- How Alan Greenspan accidentally created the real estate bubble – and the staggering effects that are still to come
- Shocking examples of the smoke-and-mirrors accounting practices the U.S. government uses – and all about the year Mike says we officially went over the edge
- The single most important thing for an investor to understand and what Mike considers the next best investment to be
- The scary side of futures and ETFs – and what you need to know before you jump onboard
- A quick look at where the gold and silver markets are – along with the common scams you'll want to avoid
- The most powerful investment lesson you can learn simply by studying history

Many people are turning to gold and silver investments as the dollar declines. But you shouldn't just jump in without knowing what you're doing – or you could lose your shirt faster than your dollars are dropping. And in this audio, you'll hear how to get started the right way from the man Robert Kiyosaki trusts for sound advice on creating real wealth using precious metals.
