This United States-focused anthology on gender focuses on women and men and the multiple identities that comprise the lives of individuals across gender. Drawing from a wide range of sources including research articles, essays, and personal narratives, Disch has chosen accessible, engaging, and provocative readings that represent a plurality of perspectives and experiences. Eleven part introductions briefly identify important issues in the general field of study, describe the readings, identify the central themes emerging throughout the book, and raise questions for students to consider.
