The British campaign in France and Flanders Arthur Conan Doyle

Excerpt from The British Campaign in France and Flanders: January to July 1918

This fifth volume deals with one of the most tremendous episodes in history, when the vigour of the German attack and the desperate resistance of the British both on the Somme and in Flanders, held an awestruck world in suspense. A million men released from the Russian front, rolled across Europe and, swelling that great tide which was already banked up before the British breakwater, it washed over all the front line barriers and threatened at one time to sweep down to the sea. The account of how the British Army, upon which incomparably the greater pressure fell, rose to the occasion and first slowed and then held the terrific flood is one of the most wonderful of military epics. At the same time every credit must be given to the loyalty of the French commanders who, while guarding their own extended lines, endeavoured to spare all possible help to their hard-pressed Allies. This volume carries the story of the German attack to its close. The next and final one will describe the enormous counter-attack of the Allies leading up to their final victory.

The Chronicler has been faced by many obstacles in endeavouring to preserve both accuracy and historical proportion while writing contemporary history.
