Deception Point

Dan Brown

Deception Point Dan Brown

When a new NASA satellite spots evidence of an astonishingly rare object buried deep in the Arctic ice, the floundering space agency proclaims a much-needed victory...a victory that has profound implications for U.S. space policy and the impending presidential election. With the Oval Office in the balance, the President dispatches White House Intelligence analyst Rachel Sexton to the Milne Ice Shelf to verify the authenticity of the find. Accompanied by a team of experts, including the charismatic academic Michael Tolland, Rachel uncovers the unthinkable: evidence of scientific trickery -- a bold deception that threatens to plunge the world into controversy.

But before Rachel can contact the President, she and Michael are attacked by a deadly team of assassins controlled by a mysterious power broker who will stop at nothing to hide the truth. Fleeing for their lives in an environment as desolate as it is lethal, their only hope for survival is to find out who is behind this masterful ploy. The truth, they will learn, is the most shocking deception of all.

In his most thrilling novel to date, bestselling author Dan Brown transports readers from the ultrasecret National Reconnaissance Office to the towering ice shelves of the Arctic Circle, and back again to the hallways of power inside the West Wing. Heralded for masterfully intermingling science, history, and politics in his critically acclaimed thriller *Angels & Demons*, Brown has crafted another novel in which nothing is as it seems -- and behind every corner is a stunning surprise. *Deception Point* is pulse-pounding fiction at its best.
