Planning Using Primavera Project Planner P3 Ver 3.0 Paul E. Harris
This text is designed to teach planners and schedulers in any industry how to setup and use the software in a project environment. It explains in plain English and in a logical sequence the steps required to create and maintain a schedule. It takes the user through to some of the advanced features of the software including resource levelling and Project Groups. It highlights the sources of information and methods that should be employed to produce a realistic and useful project schedule. It draws on the author's practical experience in using SureTrak in a wide variety of industries, and presents workable solutions to real day-to-day planning and scheduling problems and contains practical advice on how to set up the software and import data. It includes exercises, a large number of screen dumps, numerous tips and an index.
