Baby Einstein: Asómate y ve las figuras takes children on an adventurous discovery of ovals, rectangles, diamonds, circles, triangles, stars and squares. Divided into seven sections, this Spanish-language board book contains a series of bold, colorful images that highlight an individual shape. The graphics and simple poems encourage children to find different shapes on each page: a bird asks where oval eggs and raindrops are; a cow lounges in a rectangular bathtub, surrounded by rectangular soap, mirror, and rug; a monkey plays with square toys while listening to a square radio. Discovering all of the shapes mentioned, plus hidden ones, makes learning a delightful game and will keep young ones returning to the book again and again.
