Chemical Process Technology

Jacob A. Moulijn, Michiel Makkee, Annelies E. van Diepen

Chemical Process Technology Jacob A. Moulijn, Michiel Makkee, Annelies E. van Diepen

With a focus on actual industrial processes, e.g. the production of light alkenes, synthesis gas, fine chemicals, polyethene, it encourages the reader to think “out of the box” and invent and develop novel unit operations and processes. Reflecting today’s emphasis on sustainability, this edition contains new coverage of biomass as an alternative to fossil fuels, and process intensification.

The second edition includes:

- New chapters on Process Intensification and Processes for the Conversion of Biomass
- Updated and expanded chapters throughout with 35% new material overall
- Text boxes containing case studies and examples from various different industries, e.g. synthesis loop designs, Sasol I Plant, Kaminsky catalysts, production of Ibuprofen, click chemistry, ammonia synthesis, fluid catalytic cracking
- Questions throughout to stimulate debate and keep students awake!
- Richly illustrated chapters with improved figures and flow diagrams

Chemical Process Technology, Second Edition is a comprehensive introduction, linking the fundamental theory and concepts to the applied nature of the subject. It will be invaluable to students of chemical engineering, biotechnology and industrial chemistry, as well as practising chemical engineers.

From reviews of the first edition:

“The authors have blended process technology, chemistry and thermodynamics in an elegant manner... Overall this is a welcome addition to books on chemical technology.” – The Chemist

“Impressively wide-ranging and comprehensive... an excellent textbook for students, with a combination of fundamental knowledge and technology.” – Chemistry in Britain (now Chemistry World)

From reader reviews:

Kimi Frantz:

The book Chemical Process Technology gives you the sense of being enjoy for your spare time. You can utilize to make your capable considerably more increase. Book can to become your best friend when you getting strain or having big problem along with your subject. If you can make studying a book Chemical Process Technology to get your habit, you can get a lot more advantages, like add your personal capable, increase your knowledge about a number of or all subjects. You can know everything if you like wide open and read a publication Chemical Process Technology. Kinds of book are a lot of. It means that, science guide or encyclopedia or some others. So , how do you think about this reserve?

Nathan Marker:

As people who live in typically the modest era should be change about what going on or data even knowledge to make them keep up with the era which is always change and progress. Some of you maybe may update themselves by studying books. It is a good choice for yourself but the problems coming to a person is you don't know which one you should start with. This Chemical Process Technology is our recommendation to cause you to keep up with the world. Why, because book serves what you want and wish in this era.

Kim Phillips:

Now a day folks who Living in the era exactly where everything reachable by match the internet and the resources in it can be true or not involve people to be aware of each data they get. How people have to be smart in acquiring any information nowadays? Of course the reply is reading a book. Reading a book can help folks out of this uncertainty Information especially this Chemical Process Technology book because this book offers you rich data and knowledge. Of course the details in this book hundred per cent guarantees there is no doubt in it as you know.

Adrian Johnson:

Publication is one of source of understanding. We can add our know-how from it. Not only for students and also native or citizen have to have book to know the revise information of year to help year. As we know those textbooks have many advantages. Beside most of us add our knowledge, can also bring us to around the world. By the book Chemical Process Technology we can acquire more advantage. Don't one to be creative people? To be creative person must love to read a book. Only choose the best book that appropriate with your aim. Don't be doubt to change your life by this book Chemical Process Technology. You can more desirable than now.
