Book 2 In the Bodies Beneath The Stars Series

When the largest meteorite on record hits a small town in the Berkshire Mountains in New York, Adele Rockfield, an American astro-geologist, is pulled away from her peaceful life teaching abroad to join her old colleague, Dr. Arne Stederman, in its excavation. As they begin quarrying away the soil that surrounds the impacted meteorite, they make a gruesome discovery—four skeletal remains. Detective Maxwell Levy is immediately called to investigate. With the origin of the skeletons turning into a dangerous mystery, Adele soon finds herself fighting not only for her own life, but also a chance at new love.
