Alone Among the Zulus: The Narrative of a Journey Through the Zulu Country, South Africa (1866)

Catherine Barter

This book will be intriguing to anyone interested in the history of South Africa. Catherine Barter was a spinster during the Victorian era who in the 1850's travelled the unsettled regions of South Africa and survived to retell the story. It has been said that her spirit and endurance in this journey surprised her associates during that time. Of course at this time women rarely conducted business or traveled without a husband.

Part of the interest this book as garnered is due to the insight it provides into the society of the Zulu tribe before their ways had been greatly modified by white settlers and adventurers. As is demonstrated in this book, despite Zulus being feared as warriors they demonstrated kindness to travelers, and were highly skilled in prospering with their cattle industry. This book shows that their villages were considered as stopover camps for white hunters and sojourners of that era. This rare book is of great cultural, historical, and anthropological interest. At the time of its publication it excited much interest by her resolution in strange and terrible circumstances, and her truthful and quaintly humorous descriptions (which were no doubt based in part on cultural arrogance common in that era).

This book originally published in 1866 has been reformatted for the Kindle and may contain an occasional imperfection from the original publication or from the reformatting.
