## Indicators of Children's Well-Being: Understanding Their Role, Usage and Policy Influence (Social Indicators Research Series)

ROBERT C. GRANGER William T. Grant Foundation During the past 10 years or so, a number of researchers, policymakers, and practitioners have made important progress on the identification and use of indicators of children's well-being. The United States federal government, via the Department of Health and Human Services and the National Institutes of Health, as well as such private funders as the Annie E. Casey Foundation, have supported many of these efforts. During this time, the William T. Grant Foundation, who was not a primary funder of such activities, was nevertheless one of the many institutions benefiting from the work. Fortunately, Asher Ben-Arieh, Larry Aber, and Bob Goerge persuaded us to support a working conference on how to assess the effects of indicator usage on policies and programs. This volume is the result of their talents and the clear thinking of many of their colleagues. It is my pleasure to introduce the volume with a few thoughts about its contributions and the questions that remain.
