Review by:

GREG GERBER

Founder of RV Daily Report ~

"Mark Polk has written a superbly insightful book on how to use and properly maintain any recreation vehicle. This indispensable guide will save RV owners plenty of money and countless hours of frustration. With the possible exception of a sewer hose, The RV Book should be the first thing new RV owners buy. After reading it, they should store it in the cabinet above their refrigerator - it will be like taking an RV service technician with them on vacation. As a seasoned RV user himself, Mark knows first hand what all RV owners need to know to enjoy a hassle-free and safe experience on the road and in the campground. Don't have an RV yet? The RV Book can help anyone select the right motorhome or travel trailer based on the unique needs of his or her family. Mark skillfully guides even the most novice of RV users through the sometimes complicated maze of buying, owning, storing and maintaining a recreation vehicle. The book's resource section lists the names of scores of companies and associations directly involved in the RV industry, along with their web addresses should further information be desired. Reading The RV Book is just like buying 10 years of RVing experience."
