## Recommendations on Piling (EA Pfähle)

This handbook provides a complete and detailed overview of piling systems and their application. The design and construction of piled foundations is based on Eurocode 7 and DIN 1054 edition 2010 as well as the European construction codes DIN EN 1536 (Bored piles), DIN EN 12699 (Displacement piles) and DIN EN 14199 (Micropiles). These recommendations also deal with

- categorisation of piling systems,
- actions on piles from structural loading, negative skin friction and side pressure,
- pile resistances from static and dynamic pile test loading as well as extensive tables with the pile load-bearing capacity of nearly all piling systems based on values from practical experience,
- pile groups,
- performance of static and dynamic test loading and integrity tests,
- load-bearing behaviour and verifications for piles under cyclical, dynamic and impact actions
- quality assurance for construction.

An appendix with numerous calculation examples completes the work.

As part of the approval procedure for offshore wind energy structures, the Federal Office for Shipping and Hydrography (BSH) demands verifications according to the new Chapter 13 ("Load-bearing behaviour and verifications for piles under cyclical, dynamical and impact actions") of the EA Pfähle (the recommendations of the Piling working group - 2nd edition), which deals with external pile resistance for the foundations of offshore wind energy structures and the types of verifications to be provided under cyclical actions.

The publication of the EA-Pfähle recommendations by the Piling working group of the German Society for Geotechnics (DGGT), which works with the same members as the piling standards committee NA 00-05-07, is intended to provide assistance for engineers active in the design, calculation and construction of piled foundations. The recommendations can thus be considered as rules of the technology and as a supplement to the available codes and standards.

### From reader reviews:

#### **William Perez:**

Book is to be different for every single grade. Book for children right up until adult are different content. We all know that that book is very important for us. The book Recommendations on Piling (EA Pfähle) was making you to know about other understanding and of course you can take more information. It is extremely advantages for you. The e-book Recommendations on Piling (EA Pfähle) is not only giving you considerably more new information but also to be your friend when you sense bored. You can spend your own spend time to read your book. Try to make relationship with all the book Recommendations on Piling (EA Pfähle). You never really feel lose out for everything when you read some books.

#### **Jennifer Galaviz:**

The publication with title Recommendations on Piling (EA Pfähle) has lot of information that you can study it. You can get a lot of advantage after read this book. This kind of book exist new knowledge the information that exist in this book represented the condition of the world today. That is important to yo7u to be aware of how the improvement of the world. This book will bring you within new era of the the positive effect. You can read the e-book on your own smart phone, so you can read this anywhere you want.

#### **Pat Clark:**

You can obtain this Recommendations on Piling (EA Pfähle) by visit the bookstore or Mall. Merely viewing or reviewing it could to be your solve challenge if you get difficulties on your knowledge. Kinds of this book are various. Not only simply by written or printed but in addition can you enjoy this book by means of e-book. In the modern era including now, you just looking by your local mobile phone and searching what your problem. Right now, choose your current ways to get more information about your reserve. It is most important to arrange yourself to make your knowledge are still up-date. Let's try to choose proper ways for you.

#### **Heidi Garcia:**

A lot of e-book has printed but it is unique. You can get it by net on social media. You can choose the most beneficial book for you, science, comedian, novel, or whatever by means of searching from it. It is known as of book Recommendations on Piling (EA Pfähle). Contain your knowledge by it. Without departing the printed book, it could possibly add your knowledge and make a person happier to read. It is most essential that, you must aware about book. It can bring you from one destination for a other place.
