Becoming a grown-up is not all about age. Some people could be well in their late 20's or even 30's and still feel that they have not "grown up". What actually distinguishes adulthood from adolescence is the self-identity, lifestyle and responsibilities that grown-ups and other adults have to manage. In order to become an adult, you do not have to come of age. You would simply need to learn how to live as an adult.

Whether you have a partner who is asking you to "grow up" and act more mature, or you are a young, fresh graduate out of college, this book will help you in terms of figuring out what becoming an adult really means. You should know that adulthood is not just about the difficulty of paying taxes and mortgage – there is also joy and fulfillment found in a well-defined adulthood.

This book is written for those who are going to be adults in the near future and also for those who are deciding to become more responsible adults, but don't know how to start.
