Grieving the loss of someone through death, divorce, relationship breakup, suicide or estrangement causes situational depression. Much of what you are feeling may very well be just a part of the grieving process. In any case, the good news is that your situational depression can be overcome. Things just take time.

Tips From This Kindle Book About Overcoming Situational Depression

18. Depression will make you think that you know what others are thinking.

It will trick you into thinking that others see you as a negative person or as someone who is dragging them down. Whether it's true or not is highly debatable, because I'm quite sure that every negative thought you have is just the depression talking and not really the truth.

Remember, you're not a psychic. You can't read minds. Take that as a mantra and repeat it as often as possible. Say it over and over again: "I'm not a psychic." Eventually, you will realize what I'm talking about and see that the world doesn't hate you or think poorly of you.

19. If all else fails, reach out to someone.

It doesn't matter if it's a stranger, a close friend or a family member. What's important is that you find a listening ear and no, I'm not talking about your psychiatrist. While your psychiatrist can help, they don't always have the answer to every question you may have. In fact, your questions may not even have an answer. They may not even be questions at all!

Try asking your psychiatrist if there's a support group in your area. Who knows, maybe you can find someone there who is willing to listen to you rant about nonsense for hours at a time.

Be sure to return the favor as well, since we all have our own battles to fight.

20. Cut yourself some slack. I know that you shouldn't expect others to do it for you, but that doesn't mean that you should be too hard on yourself. Whatever it is you're going through, forgive yourself, even if it's all your fault.

There will be times when you just can't get out of your room, you feel down, and when you just can't take facing the world, even if it's just for a while. Accept that feeling that way is perfectly normal.

Give in every once in a while. Think of it as a fitness expert's equivalent of cheat day advice.

Message From The Author

This list of ideas in this Kindle book about depression WILL NOT INSTANTLY CURE YOU.

You have to remember that no list in the world can help you with your depression. It doesn't matter if it's situational or not. This is because depression takes time to fight and much like a strong adversary, depression will not go away easily.

The tips found in this book will help you understand depression a little bit more. Think of this as a guidebook that helps you know what to do and what to expect when you're going through such an ordeal. Much like any guidebook out there, it doesn't exactly work for everyone: sometimes it will, but sometimes it won't. Regardless, the information will still be useful and will definitely help you find a way to fight depression that works for you.
