## **The Road to Integration: A Guide to Applying the ISA-95 Standard in Manufacturing** Bianca Scholten

In recent decades, industrial companies have invested much time and money in enterprise resource planning (ERP) systems and in automation of the process control layer. In our quest to reap the rewards of all these investments, the gap between business automation and process automation is becoming painfully obvious. ERP systems are only valuable if you supply them with current data, and these data originate largely from the process control layer. When integrating these systems, both IT departments and engineering departments must confront the high degree of heterogeneity found in technology, metadata, programming languages, user interfaces, and more. Good communication with the system's end user is essential as several departments are usually involved, such as production, maintenance, the lab, and the office. Try speaking the same language then! Against this backdrop, ISA decided in the 1990s to develop the ISA-95 standard for integrating enterprise and control systems in order to reduce the risks, costs, and errors that go hand in hand with implementing manufacturing control systems and integrating them with ERP systems. This handy resource explains how to apply ISA-95 in manufacturing enterprise systems (MES) and vertical integration projects, as well as reveals the most important ISA-95 models and terminology. It is ideal for those just starting out who need to get up to speed on ISA-95's background information but also for those who have some practical experience with ISA-95 and require additional support in carrying out analyses to determine a specific company's MES strategy and to define user requirements. If you develop MES functionality or realize interfaces based on ISA-95, then this guide will help you understand and apply the ISA-95 object models. Most important, the guide explains how to integrate ERP and MES systems using ISA-95. It places ISA-95 in the broader context of modern information exchange technologies and thus offers a complete picture for project managers, consultants, programmers, and information architects who want to integrate ERP and MES systems based on the international standard. - See more at: <https://www.isa.org/store/products/product-detail/?productId=116016#sthash.aJ7ITTfn.dpuf>

### **From reader reviews:**

#### **Eva Dawson:**

Throughout other case, little individuals like to read book The Road to Integration: A Guide to Applying the ISA-95 Standard in Manufacturing. You can choose the best book if you love reading a book. Provided that we know about how is important a new book The Road to Integration: A Guide to Applying the ISA-95 Standard in Manufacturing. You can add information and of course you can around the world by just a book. Absolutely right, since from book you can learn everything! From your country until eventually foreign or abroad you will be known. About simple issue until wonderful thing it is possible to know that. In this era, we could open a book or maybe searching by internet device. It is called e-book. You need to use it when you feel uninterested to go to the library. Let's learn.

#### **James Jean:**

Nowadays reading books become more and more than want or need but also get a life style. This reading habit give you lot of advantages. Advantages you got of course the knowledge your information inside the book in which improve your knowledge and information. The info you get based on what kind of publication you read, if you want attract knowledge just go with knowledge books but if you want sense happy read one together with theme for entertaining for example comic or novel. The actual The Road to Integration: A Guide to Applying the ISA-95 Standard in Manufacturing is kind of reserve which is giving the reader erratic experience.

#### **Myrtle Anderson:**

In this era which is the greater man or who has ability to do something more are more valuable than other. Do you want to become among it? It is just simple strategy to have that. What you should do is just spending your time almost no but quite enough to enjoy a look at some books. Among the books in the top collection in your reading list is usually The Road to Integration: A Guide to Applying the ISA-95 Standard in Manufacturing. This book that is qualified as The Hungry Hills can get you closer in getting precious person. By looking up and review this e-book you can get many advantages.

#### **Rose Taylor:**

A lot of people said that they feel uninterested when they reading a e-book. They are directly felt the idea when they get a half parts of the book. You can choose typically the book The Road to Integration: A Guide to Applying the ISA-95 Standard in Manufacturing to make your personal reading is interesting. Your skill of reading expertise is developing when you similar to reading. Try to choose easy book to make you enjoy you just read it and mingle the idea about book and studying especially. It is to be initially opinion for you to like to start a book and learn it. Beside that the book The Road to Integration: A Guide to Applying the ISA-95 Standard in Manufacturing can to be your new friend when you're really feel alone and confuse in doing what must you're doing of this time.
